# THE PRODUCTION

## MADE IN BRITAIN

---

We are a proud member of Made In Britain ([www.madeinbritain.org](http://www.madeinbritain.org)) — your guarantee for UK produced items.

Our furniture is made by skilled craftspeople in High Wycombe, UK. From carpentry through bodywork, cutting, sewing and upholstery to final quality check, Circus 25 guarantees the utmost care and attention to detail to each product.

In addition, we have an in-house delivery and installation team whom are able to assist with access checks, on-site templating, and assembling and installing both loose and fitted furniture and joinery on site. Our tactical factory location allows us to arrange fast access within London/M25 as well as swift access to the rest of the country.

As a Made In Britain member we aim to use the best the UK has to offer including the skills of our team, the materials we use and our vast industry knowledge.

## THE MACHINERY

Using new state of the art machinery at our 10,000 square foot factory in High Wycombe, our talented craftsmen are able to create stunning bespoke furniture for any design project.

---

## CARPENTRY

Our talented carpenters use state of the art machinery and hardwood beech wood to create solid frames to last. Each piece of furniture requires its own unique combination of material, and the carpenter uses a variety of woods including the right choice of oak, walnut, beech, veneer, MDF or plywood for the job at hand.

---

---

## Foam, Bodywork, Fabric Cutting and Sewing

Each element is important in ensuring the comfort and aesthetic of the furniture. From picking the right density foam and creating the perfect mould for the furniture, to knowing exactly where to cut the fabric ensuring patterns match and the least amount of fabric goes to waste, to finally sewing it all together in perfect harmony with the design of the individual piece.

---

---

## Upholstery and Final Touches

Finally, the upholster seamlessly dress the furniture, adding details like studding, deep or pulled buttoning, fluting, piping or intricate pleating.

At Circus 25 we always go through thorough quality control before any piece of furniture leaves the factory, ensuring the highest quality of furniture for the end client.

---

# JOINERY SERVICE

---

Circus 25 also offers bespoke joinery solutions from wardrobes and bookcases to TV-units and bars. We work with you to make sure your design includes every detail and integrates seamlessly with your project. Get in touch to learn more about our fitted furniture services.

---

## OUR COLLECTIONS

## BRUNELL COLLECTION

---

The Brunell Collection is a timeless and elegant collection of dining, side, coffee and console tables as well as shelving.

The designs are a luxurious addition in both contemporary and classic designs scheme, and work well with both bold colour schemes and toned down designs.

The collection consists of a wide range of designs incorporating materials and finishes like brushed metal, brass, bronze and Champagne finishes, iron bases, thick clear and smoked glass, white jade and Portoro marble.
